

INTERNATIONAL SCIENTIFIC CONFERENCE

5 – 6 May 2022
ZAGREB, CROATIA

Organised by the
Croatian Interdisciplinary Society

AIMS & SCOPE

Changes throughout the modern world, that we witness and that we participate in, will continue to bring about novelties as either expected or unexpected segments of reality. But, owing to the different time scales on which changes occur, some parts change so gradually that we consider them to be constant for several generations. And those which are important to our society are called the fundamentals.

The conference focuses on the fundamentals of our world. Because they extend physically and symbolically throughout our world, this conference is an invitation to the scholars and experts from diverse disciplines to present, exchange and discuss their results related to the fundamentals of future society, in an interdisciplinary approach.

PROGRAMME

The programme will include oral presentations. The time span reserved for every oral presentation is 15 minutes including discussion.

Abstracts will be published in the Book of Abstracts. Selected papers will be published in the INDECS journal, <http://indec.s.eu>.

The official language of the Conference is English. There is no conference fee. The Conference has a hybrid character, with both online and in-person presentations.

SCIENTIFIC COMMITTEE

- Vladimir Drekalović (ME)
- András Margitay-Becht (US)
- Olga Markič (SI)
- Katalin Martinás (HU)
- Prasasti Pandit (IN)
